Re: Legal Attorney

Dear Judge Wolinger:

Please be advised, I have  
been advised to file a  
lot of my property (legal matter)  
is missing. I strongly believe  
with everything that is happening  
in my life, and the court cases  
being filed under I am unable  
to effectively handle this case.

Reason why my property is  
being researched case law effectively  
and the court cases, my property

II  
manual was stating, I am financially incompetent to keep sending legal mail out, and I don't have access to any type index, pens, or copy machines.

Basically, I need an Attorney pro se to properly manage this case please.

Please look in to these issue A.S.A.P. I have respectfully served the city Attorney with both forms, and received four identified officers names. Do you want me to serve them?
